

MYTH BUSTING

TOO OFTEN, SOLAR FARM SITE OWNERS TOLERATE SUB-STANDARD O&M SERVICES BECAUSE THEY ARE PUT OFF BY THE MYTHS SURROUNDING THE DIFFICULTIES OF CHANGING O&M PROVIDER.

IN REALITY, IT'S QUITE SIMPLE. TO PROVE IT WE'VE TAKEN THESE MYTHS AND BUSTED THEM.

GIVE US A CALL AND LET US PROVE IT TO YOU.

MYTH

THE CONTRACT TERMINATION NOTICE IS THREE MONTHS – DURING THAT TIME I WILL LOSE LEVERAGE WITH MY EXISTING SUPPLIER AND MY FARM WON'T BE CORRECTLY LOOKED AFTER

BUSTED

Brighter Green is able to offer you a light touch, emergency support throughout the termination notice period. If your current O&M contractor is unresponsive to call outs or requests for repairs, our light touch service means you suffer minimal downtime and reduced loss of revenue.

This service is offered at a fraction of the contract price and should put your mind at ease.

MYTH

BRIGHTER GREEN ENGINEERING IS JUST A START UP, WITH THE VOLATILITY OF THE SOLAR INDUSTRY HOW DO I KNOW YOU WILL BE ABLE TO HONOUR YOUR "GUARANTEED" COMMITMENTS?

BUSTED

Brighter Green Engineering is a wholly owned subsidiary of Foresight Group. Although we operate as an independent entity, we maintain a parent company guarantee that ensures all of our promises to customers can be met with confidence. Foresight Group is a leading independent infrastructure and private equity investment manager with £1.8 billion of assets under management.

MYTH

TRANSITIONING SUPPLIERS IS EXPENSIVE

BUSTED

We pride ourselves on offering a transition with no transaction costs. There is no transaction fee and the first payment is due three months in arrears. Simple as that. Our Emerald package also provides customers with complete transparency of estimated costs throughout the contract.

MYTH

I HAVE FINALLY WORKED OUT WHO AT MY CURRENT SUPPLIER TO ENGAGE TO GET STUFF DONE, I DON'T HAVE TIME TO LEARN THIS OVER AGAIN

BUSTED

We are professional and friendly, but most of all, we are accessible. Each site has its own dedicated and named engineer. No call centre, no hassle. Your named engineer is your single point of contact for day-to-day matters.
